

The expansion of LPFM will irreparably harm the stations now serving our area. We are regular listeners of K-Love station 94.9 which offers nonthreatening broadcasting favorable for our entire family. It is in the public interest for family friendly broadcasting to continue uninterrupted by federal changes to broadcast services. In today's time there is very little social value in the majority of programming available both on TV and in radio. K-Love is the source of something unique and valuable. Please do not threaten its power.
